**SPIA Illustration Software Version 4.20 Available**

December 23, 2009

An updated version of the illustration software for Transamerica Life Insurance Company's (TLIC) Single Premium Immediate Annuity (SPIA) Product (version 4.20) is now available on TransACT®.

Changes to this version of the software: (1) clarify the 40-day rate lock period that applies to single premiums of \$25,000 or less that are funded by IRC Section 1035 exchanges or qualified rollovers/transfers; and (2) remove the Restricted Certain Only payout option from the list of available payout options for policies issued in Texas.

To download our SPIA (version 4.20) illustration software, please perform the following steps.

1. Click here to run the software: [https://transactrls.transamerica.com/shared\\_docs/exe/spia420.exe](https://transactrls.transamerica.com/shared_docs/exe/spia420.exe)
2. In the "File Download" box, click on "Save this program to disk," and then click on "OK."  
(For Windows XP users, click on "Save.")
3. In the "Save As" window, click on the down arrow in the "Save in" dropdown box.
4. Select "Desktop," then click on "Save."
5. Close all applications once the download is complete.
6. Run the saved file from your desktop.
